PERMANENT COSMETICS AFTER CARE INSTRUCTIONS

Proper care following your procedure is necessary to achieve the best results. Keep in mind that in many cases, some unevenness of color is to be expected. This is the purpose of the touch-up visit. Please review the following directions and refer to them as necessary. If during your healing process you have any questions or concerns, please contact your technician.

1. Wash your hands before touching any treated area. Cotton-tipped applicators may be used to gently cleanse the eye area. Do not expose the area to dirty or unsanitary conditions. Wearing glasses outdoors is a good way to protect new eyeliner from dust, etc... that can stick to healing agents. Apply recommended healing agents sparingly.
2. Some itching is normal. **DO NOT PICK, PEEL, OR SCRATCH** the treated area or your color may heal unevenly and you risk scarring and infection.
3. No makeup is to be applied for 72 hours after the procedure. After any eyeliner procedure, use new mascara. Do not use an eyelash curler for two weeks.
4. Do not expose your healing skin to direct sun, tanning beds, hot tubs, (tub baths if body area treated), saunas, salt water, chlorinated pools, direct shower spray, hot water, skin creams, ointments, or lotions other than what you have been instructed to use for 2 weeks following your procedure.
5. After a lip procedure, keep your lips moist at all times. Avoid spicy foods or heat. If using herpes medication, continue as prescribed. Do not use teeth bleaching products until fully healed.

LONG-TERM CARE

1. Use a good sunscreen daily - even the lips require protection. Sun exposure will fade your permanent cosmetics and may cause irritation even years later.
2. If you are planning chemical exfoliation, MRI, or other medical procedure, please inform your physician of your cosmetic tattoo.
3. If you donate blood, you must disclose that you received permanent make up and – check if restrictions apply to you.
